

ECOlogistics – for our future

January 2015

# Luxembourg – a pan-European hub

- Ideally located for global business, right at the heart of Europe, on the crossroad between the **North-South & East-West axes**
- Daily conventional & multimodal rail connections from/to major **ports of the North Sea, the Baltic Sea & the Mediterranean**, as well as from/to the main European industrial regions
- Positioned at the centre of a European **rail motorway network** currently in development

# CFL freight activities

---

---

**Two CFL subsidiaries with complementary transport & logistics service offerings for international business customers:**

## **Rail freight operator**

- Pan-European rail freight services for international, regional & local customers
- Logistics operator for transport of oversize loads
- Competence centre for wagon fleet repair, maintenance & management

## **Logistics operator**

- Multimodal offer for industrial & commercial companies in Luxembourg & greater region
- Storage solutions & high added-value logistics services
- Management of terminal & logistics infrastructures
